

Homelinks FS1
Term 2

We would like all children in FS1 to try to complete 4 of the tasks listed below by March 16th. We look forward to celebrating the children's home learning at school; as they complete a task please can they bring something into school to share with us (this may be a photograph if it is a practical task with no end result). Photographs may also be e mailed to class teachers. We will create a class book of photos, drawing etc. to allow the children to share their work with their friends.

FS1 Ruby – Miss Gilchrist gilchrist@thepearlacademy.sch.ae

FS1 Sunstone - Miss Grehan fgrehan@thepearlacademy.sch.ae

FS1 Opal – Miss Broni jbroni@thepearlacademy.sch.ae

Curricular Area	Drip Drop, Splish Splash! What would our world be like without water? We will be investigating the following: Where does water come from and how do we use it? What are the properties of water? What will float and what will sink?	Around the World in 30 days. Are all countries the same? We will be travelling to different countries; learning about their environments and culture and comparing them to the UAE.
Communication and Language	Tell your teacher about an exciting adventure you had during the holidays or over the weekend. Try to use some new vocabulary words that you have learned.	Pick a country and learn two things about it you can share with your friends.
Physical Development	Go to the beach with your family. Have fun paddling or swimming in the water. Take some pictures which you can share with your friends.	Use scissors to cut out pictures and make a collage.
PHSE	Discuss water safety at the pool or beach. What can you do to be safe near or in the pool?	Share your toys with your siblings, cousins or friends.
Literacy	Find the letters from your name in a newspaper or magazine; cut them out then stick them on a card in the correct order.	Read some new stories, fiction and non-fiction at home. Re-tell the story in your own words.
Mathematics	Fill up different sized containers when you are having a bath. Can you say which ones are full, half full or empty?	Create a shape pattern using 2 or 3 different shapes.
Expressive Arts	Mix primary coloured paints (red, blue and yellow) to create some new colours. Use the new colours to paint a picture.	Enjoy dancing and moving to music from different countries.
The World Around Us	Use junk modelling materials to build a boat. Will it float?	Bring an object from your country to school. Be able to tell your friends its name and what it is used for.
